COVERS RICHEST GOLD AREA IN CALIFORNIA

Vol. 12, No. 79. The County Seat Paper NEVADA CITY, CALIFORNIA The Gold Center MONDAY, OCTOBER 10, 1938.

From the Californian, March 15, 1848:
The Liberty of the Press consists in the right to publish the Truth, with good motives and for justifiable ends. — Alexander Hamilton

Thinking Out Loud

By H. M. L.

Is there anyone in Nevada County who will not vote, provided he can vote, to make No. 1 on the Novlaw of California? No. 1 on the November ballot sheers the gossamer wings of the labor racketeer. Union workmen may still picket, still strike and still boycott, but they can't carry the dispute into the highways and byways and punish John Q. Public and the innocent bystanding third party.

No. 1 on the ballot provides for peace in industrial relations. It does not favor the greedy employer or the "economic royalist", but it does draw a ring around the disputants and says to them, "stay inside that ring —or else." Los Angeles passed No. 1 as a city ordinance by a vote of two to one. It should and we believe it will pass by the same ratio in the California, to make it a state law.

Nevada County after its experience with the CIO and their racketeering leadership which promises all union workers (when the country is 100 per cent labor organized) $5,000 a year, should vote 95 per cent for No. 1. The 5-per cent dissent would of course come from up Boca way where the CIO have taken over the city of Truckee. And by the way there is plenty of evidence to show that "Red" Adams, he of the long-as-your-arm police record, has Truckee pretty much in the hollow of his hand, or in his vest pocket, as the case may. Still with a secret ballot we fancy even the Truckee worm will turn on November 8 or at least wriggle a little. The Truckee precinct gave Sheriff Tobiassen a three to two vote.

"Red" Adams, it will be recalled came down to Nevada City during the late unpleasantness with a five or six goons, and they were just going to show Nevada City where to head in. Unfortunately before they started anything they wound up in the county jail bull pen and marched right out of Nevada City again before the next sunrise. Since that time CIO goons have been busy beating up and expelling the lads they disfavored in Truckee. Three of them have come as far west as Nevada City and have complained to the sheriff about Truckee's bad manners. We have not, thus far, heard any CIO racketeer squealing about this injustice although they raise a loud ya-hoo-o-o when anything like that happens to one of the "brothers'.. Which only goes to show that it all depends on who takes the law into their own hands .

On Wednesday the Lava Cap mine workers are, at long last, voting on what or which group shall be the bargaining agency. We feel confident that when this vote is concluded and the results made known, the CIO will have lost its toe-hold in Nevada County's mining industry. We would feel much more confident if the voting were supervised by any other officials than the Labor Board's hired hands. The CIO bias of the Labor Boarad is almost the nation's ranking scandal. What this U. S. agency did to the P. G. & E. bargaining agency vote, where employes voted two to one to make an independent union the bargaining agency, still constitutes California's major complaint against the Labor Board, though the deal given the Idaho-Maryland in this county runs it a close second. One can almost envision this triumvirate of pinko- dictators on the Labor Board promiscuously heaving their stink bombs of injustice hither and yon through the country. No wonder the AF of L and all independent unions in the county are out with long pair shears to clip the boards legal winds at the next session of congress.

But regardless of what happens to the Labor Board in Congress, California can do its part by putting No. 1, the measure for industrial peace, on the statute books. Nevada County has proved that it can act as a unit in an emergency, and it has had an abundant experience ,with the tactics of the CIO. A vote for No. 1 is a vote against labor racketeers in California. It is a vote against Harry Bridges in San Francisco, and against the barber from Idaho, Scot Erwin, who plagued Nevada City until the great exodus. It is a vote against the tactics that reduced the number of men employed in Akron, Ohio, from 75,000 to 25,000. It is a vote against all loud mouthed agitators that fasten themselves like horse leeches upon credulous and normally industrious working men.

SEN. JOHNSON BACKS BANCROFT IN SENATE RACE

SAN FRANCISCO, Oct. 10.—United States Senator Hiram W. Johnson, leader of progressive forces in state and national public life, has announced his active support of Phillip Bancroft of Walnut Creek, nominee for California's second seae in the senate.

Senator Johnson entered the current California campaign with a formal statement in which he reviewed Bancroft's progressive record and described him as "a new kind of campaigner, who believes in what he says and says it without equivocation."

The statement by Senator Johnson indicated that he will take the platform for Bancroft, discussing issues of the campaign.

Senator Johnson said:

"I'm for Philip Bancroft for United States senator. I am for him because he has honesty, integrity, ability, and above all, courage. In plain unvarnished language he has told the people just where he stands and why. You may not agree with all he says, but he leaves you with the highest respect for his opinions and with glowing admiration for his candor and forthrightness.

"In a political world of deceit and hypocrisy he stands forth a new kind of campaigner, who believes in what he says and says it without equivocation. His character is above reproach, and character, and courage, and independence the times demand.

"Many issues of transcendent importance will arise in our Republic in the next two years which must be decided by character and courage and independence, and then men like Bancroft will be needed.

"In a brief statement, such as this, I cannot discuss these issues. I hope to do so hereafter.

"But having known Phil Bancroft for a lifetime and fought the good fight with him, I am for him not only for the traits of character he has ever displayed, but for his part in the regeneration of California.

"In 1910 he was one of a little band of men unafraid who rallied to me in a time of political stress. When we were under the iron and corrupt rule of a great corporation, and a few adventurous sprits started upon their great crusade, he was in the van.

We did what we set out to do and did it well. The tale so often told is a part of California history and it needs no repetition. How the few increased and grew into the majority and finally won was an epic in our state.

"For most of those who then fought by my side I have always cherished an abiding affection. Bancroft never faltered, never hesitated. No power was too great, no baleful influence too entrenched, for the little band that started to "see it through," and with persistency, courage, a gay indifference to odds, we went forward until California was a free state and victory was ours.

"As I look back upon the long gruelling fight and the years succeeding, I see Phil Bancroft ever sturdily doing his part. Of course I am for Philip Bancroft for United States Senator."

BUILDING ACTIVITY IN NOR. SAN JUAN

North San Juan, north of Nevada City about fifteen miles, is experiencing considerable building activity. Lewis Woods has started work on two cottages on a lot across from his store which will be most modern. Considerable remodeling is being done on a building adjoining his store in order to enlarge his place of business. Three other new buildings are to be built in a short time.

NEW HOME GOING UP

Ed Latour, employee of the state division of highways, has let a contract for a five room home near the Prouse Drive-In Market. Work started on the building Thursday morning. Mr. and Mrs. Latour expect to move into their new home in a very short time. The transaction was handled through the Sugar Pine Products company of Nevada City.

Miss Mavis Conley, daughter of Mr. and Mrs. Ed Conley of Town Talk has secured a position in Palo Alto.

YELLOW JACKETS LOSE BY ONE TOUCHDOWN

Outweighed by an average of twenty pounds per man the Nevada City Yellow Jackets lost by the close score of 13 to 6 to their staunch rivals at Gridley Saturday afternoon. Valiant and determined, but decisively outplayed, Nevada City let their once chance of victory slip through their hands when Ponticelli dropped a pass thrown to him over the goal line in the end zone.

Coach Martin, however, was quite well satisfied with the showing made by his boys. Their efforts in this game showed a decided improvement over those made in their last contest.

WASHOE SHERIFF BALKS CIO MASS PICKET INVASION

An appeal to Sheriff Ray Root and District Attorney Ernest Brown of Washoe county to protect its men against a mass invasion of CIO pickets from Boca, saved the Isbell Construction company, at work on the highway west of Verdi, from stoppage Friday. Attempts to take over the job on the part of the CIO members from Boca have thus far failed, with the sheriff, the district attorney and armed deputies stopping everyone traveling eastward and ascertaining their business. A CIO delegation in 40 cars was turned back Saturday and they proceeded to camp a mile or two west of Verdi.

District Attorney Brown said he expected the pickets to march on Nevada again early tomorrow morning. His announcement following a conference with CIO representatives and officials of the Isbell Construction company which is engaged in highway work in Washoe county.

He said the CIO renewed a request to bring 100 men into Nevada to picket Isbell projects and that he refused the request. The union representatives, he said, left immediately for Truckee, Calif., where the unionists held a meeting last night.

John B. Walker, union secretary, said he would appeal to the United States senate's civil liberties committee, charging that Brown and other Washoe county, Nevada, authorities and officials of the Isbell Construction company have denied the CIO right to organize workers.

FOREST SERVICE TALLY REVEALS 544 DEAD BUCKS

The forest service checking stations on the Tahoe National Forest have checked a total of 544 bucks up to and including September 30. The various districts are represented by the following figures: Big Bend, 70; Bloomfield, 182; Forest Hill, 20; Camptonville, 15; Downieville, 19; Sierraville, 78; Truckee, 160.

It has been stated that although the total number of hunters in the woods is about the same as last season, there have been seven hunter fires reported to date, a considerable increase over the same period last year.

ARMISTICE DAY PLANS

Banner Mt. Post, V. F. W., Auxiliary held a most enjoyable meeting last Friday evening and completed plans for a card party in the near future. The program for Armistice Day was also worked on. The local post and auxiliary assists Grass Valley each year in the celebration of this day and in turn they assist in honoring Memorial Day in Nevada City.

N. J. Rahr of Watsonville is visiting his sister in law, Miss Ada Rich of Pine street. Mr. Rahr lived in Nevada City twenty two years before moving to Watsonville and enjoys returnings to greet old friends.

Henry and Lon Paine, mining men of Lake City, are business visitors in Nevada City today.

Al Williams of Park avenue who went out hunting several times was successful in bringing in a big three point buck from the Lake City district Monday.

"PREXY"

President Robert Gordon Sproul of University of California, will be guest of honor and principal speaker at a regional meeting of California Alumni Association, to take place on Sunday, October 23, at the Bret Harte Inn, Grass Valley, commencing at five o'clock.

SUPERVISORS TO SEE CALIFORNIA BLDG. AT FAIR

Coincident with ground breaking ceremonies for the Alta California Building on Treasure Island in San Francisco bay, C. S. Arbogast, chairman of the board of supervisors of Nevada County and County Clerk R. N. McCormack, wil be the guests of the San Francisco Chamber of Commerce on Thursday, October 13.

The Alta California Building will house the $100,000 San Francisco World's Fair exhibit of Alta California, Inc., an organization of county supervisors from fifteen Northern California counties. Members of the organization, including the aforementioned, will attend Thursday's ground breaking ceremonies.

After the exercises the San Francisco Chamber will entertain the members of Alta California, Inc., and their ladies at a luncheon at the Palace Hotel. C. E. Steinegul, president of Alta California, Inc., will address the gathering in response to welcoming messages by San Francisco's Mayor Angelo J. Rossi and J. W. Howell, president of the San Francisco Chamber.

The program, as arranged by the Chamber's Domestic Trade Department, also will include short talks by other city officials, and by executives of the Exposition Company.

Nevada County members of Alta California, Inc., who will be the San Francisco Chamber's guests on Thursday, are: Messrs. C. S. Arbogast, R. N. McCormack, Frank J. Rowe, Jay Coughlan, Alex Robertson and Warren Odell.

The Alta California, Inc., World's Fair exhibit will be a major part of the organization's program to publicize the advantages of this part of the state.

RUBY MINE

Bert C. Austin, engineer for the Ruby gravel and quartz mine between Forest and Goodyears Bar, returned from the property this forenoon and left Nevada City shortly after noon for his home in San Francisco. Mr. Austin states there are 35 men employed drifting in the old tunnel and mining from rich quartz veins found in the drift while taking out gold bearing gravel. Louis Huelsdonk is superintendent of the Ruby mine.

Bert C. Austin, mining engineer and president of Mining Exchange Inc., for the Golden Gate International Exposition, left today after a short visit with his mother, County Superintendent Ella M. Austin. The many friends of Mrs. Austin will be pleased to learn she has so far recovered that she is able to resume her duties in her office.

J. D. Rafferty, law enforcement officer for the Tahoe National forest, has been busy the past few days arranging the exhibit the forest service will have in their booth in the coming county fair on the 16, 17 and 18.

ALFRED NETZ IS STILL CHAMP OF ROCK DRILLERS

Alfred Netz, the red headed rock drilling champion of Nevada City, went to Plymouth, Amador County Fair last Saturday mainly to enter the single jack drilling contest.

Imagine his chagrin and disappointment when he learned that the contest had been called off for lack of funds. At the time scheduled for the drilling contest a mucking contest was staged. Well, our champion thought he might as well take revenge on the muck pile for crowding out his favorite game, so he asked the officials for permission to enter and they readily agreed to allow him to become the seventh entrant. When asked what mine he was from he mentioned the Murchie mine of Nevada City, for that is the place where he spent three months at mucking. When all the so-called champion muckers had had their turn and the time checked, our boy was in the lead, having mucked, trammed and dumped a one ton ore car in three minutes and twenty five seconds.

Feeling somewhat better if not elated he used the amplifying system challenging anyone present to a drilling match. One bold individual accepted the challenge and a match was set, each to drill five minutes. He also won this, drilling three inches deeper than his opponent, drilling nine inches in the allotted five minutes.

APPLE CROP GOES TO MARKET

Apple picking started about three weeks ago and the fruit is being trucked to the Grass Valley packing plant where it is washed and placed loose in boxes and shipped to Oakland commission merchants. It is a light crop but fruit is fine size and sells for approximately two and a half cents per pound. The Johnathan and King Davids have been picked and growers have just started picking Wine Saps, Staymen Wine Sap and red Delicious. Pear picking has been over about two weeks. There was a fairly good crop and prices toward the last of the season were higher.

PHIL BANCROFT, JOE KNOWLAND COMING OCT. 15

Phillip Bancroft, Republican candidate for the United States Senate, according to advices received today, will be the guest of Nevada City and Grass Valley next Saturday. Republicans and conservative Democrats are planning to give him a hearty welcome. Since Sheridan Downey, Democratic candidate for the senate, first espoused the "ham and eggs" warrants every Thursday, and thereby won a tremendous vote from the aged and credulous, and then in his interview with the President practically repudiated the plan, he has become known as the "political butterfly." Bancroft, outspoken proponent of sound, progressive measures, will undoubtedly receive an ovation in Nevada County. Bancroft will attend a banquet and night meeting at Auburn, Saturday night.

Joseph Knowland, publisher of the Oakland Tribune and national Republican committeeman, and Mrs. Edith Van de Water, national committeewoman, will be guests of Nevada County Saturday. Their visit will signalize the opening gun in the Republican campaign in this county. The Republican County Central committee of which Paul Ullrich is chairman, and the Merriam-for-Governor-club, have joined forces to give the distinguished visitors a big dinner at the Bret Harte Inn on Saturday evening, October 15, at 7 o'clock. All Republicans and their friends, men and women, are cordially invited to attend. The dinner price is $1.00 per plate. Reservations should be made promptly at the Bret Harte Inn at the Merriam-for-Governor club, 209½ West Main street, Grass Valley, or with Paul Ullrich, Chicago Park, Grass Valley.

THIEVES PILFER IN ALPHA STORE

Employees going to work at the Alpha Hardware store this morning found the back door wide open and evidence that thieves had been robbing the store. The officers were summoned. From the disarrangement of goods on the shelves it was believed it was the work of youngsters as there were some cartridges and hunting knives missing. Deputy Sheriff Carl Larsen stated it was possible the thieves hid in the lower story in the rear of the building, remained there until after the store was closed helping themselves and then opening the big doors by lifting the bars when they were ready to leave. There was no evidence of their breaking into the building. The robbery occurred between quitting time Saturday night and this morning.

ROBIE ASKS THAT TAHOE UKIAH BE OPEN ALL WINTER

Following the report published in the Nugget that the Nevada City Chamber of Commerce and the business interests of the twin cities were much concerned about keeping the Tahoe Ukiah highway open throughout the winter, Wendell Robie, a director of the Auburn Ski Club, made public the following letter addressed to Judge Tuttle, chairman of the Chamber's highway committee:

Judge Raglan Tuttle,
Nevada City, California

Dear Raglan:

In the Nevada City Nugget this morning, we note that a meeting is scheduled between a delegation from Nevada City and with the State Highway Commission regarding the winter opening of the Tahoe-Ukiah highway.

The Auburn Ski Club has gone on record, several times during the past three or four years requesting the State Highway Commission to keep your road open, and also we have urged the completion of the short link West of Bear Valley to first grade standard in keeping with the rest of the highway.

We have first hand knowledge of the value of an open highway to the communities located on Highway 40. We have substantial membership groups in Nevada City, Grass Valley, and Marysville, and would like these same values to accrue to the communities on the Tahoe-Ukiah highway. The people in Nevada, Yuba and Placer counties have most everything in common and we should all cooperate for the mutual benefit of this entire area.

We are sure that the membership of the Auburn Ski Club, in all the places where they live, will actively back your play in anyway you want us to assist.

This year, the National Ski Association of America has awarded to the Auburn Ski Club the International Championship events in downhill, slalom racing and in jumping. The jumping events will be held at Treasure Island to open the Golden Gate International Exhibition on February 18 and the racing events, which will bring to California the finest entry list of skiers on the continent, will be held at the Eki Club February 11 and 12. The Tahoe National Forest, the Works Progress Administration, the State Relief Administration and other public groups have given splendid support to holding this event, which will be one of the most important skiing competitions ever held in California.

The State Highway Commission should do likewise, and no doubt will they always have cooperated in the past and in fine fashion. They can help Grass Valley and Nevada City to benefit from this attraction and from the desirable trade and traffic which will follow from an open highway to the splendid winter recreation areas in the vicinity of the Ski Club.

Sincerely yours,
WENDELL T. ROBIE,
Apburn Ski Club.

Little Billie Hullander, who has been ill in Jones Memorial hospital over five weeks was brought home the latter part of last week. He is showing improvement from his severe sickness. He is the son of Mr. and Mrs. A. Hullander of Broad St.

Poor Man's Castle

The conerstone upon which Democracy is built is the integrity of the home. It was fundamental in British law many centuries before it was incorporated in the Bill of Rights of our Constitution.

Hearts of free men the world over respond to the immortal phrase of the English statesman who declared of the humblest home in the realm: "The wind may enter, and the rain may enter—but the King of England may not enter there." Hearts of Americans respond to the guarantee of the Constitution of the United States: "The right of the people to be secure in their persons, houses, papers and effects . . . shall not be violated . . . nor shall private property be taken for public use without just compensation."

Strange and startling it is, then, for the citizens of California to be confronted with a direct threat to destroy that cornerstone. Proposition 20 on the November ballot hides the "Single Tax" under the false banner of "Sales Tax Repeal" —and the "Single Tax", which would load the entire burden of governmental support upon land, would inevitably result in tax confiscation of every home in California and in State ownership.

Tax confiscation, in plain fact, was the avowed object of Henry George, father of the "Single Tax" movement in the United States, who asserted that private ownership of property was "against natural justice" and who frankly favored confiscation of all private property in land without compensation to what he termed the miscalled owners."

It isn't a thing for California to be proud of—to have the world know we have given the dignity of a place upon our election ballot to such an anti-American, anti-Constitutional and pro-Communistic measure. We can, however, "save face", by giving Proposition 20 a "No!" vote of such thunderous proportions that it may be heard across the cintinent.—Contributed.

Butter For Labor's Bread

It might be in line with Nazi strategy—as has been charged—to seek liaison with the AFL, in view of the support thrown to the CIO by Communists. But the charge, even if true, need cause scant concern. AFL leadership has recognized the totalitarian theory as dangerous to labor's welfare—just as dangerous as the theory of Communism. In so far as the status is considered, the difference between Italy, Germany and Russia is solely geographical. In all three, wages and working conditions are fixed by a dictator's decree; labor has neither force nor voice. And in all three, labor's wage scale and standards of living are so low that, in comparison, the American worker is enjoying a prosperity boom.

Government control of industry is the nightmare of the intelligent workingman. Under any circumstances, he must earn his bread by the sweat of his brow—but that bread is buttered on the side of private enterprise. Suppose, for instance, that the American railways, operating at a loss and in many cases bankrupt, should be driven to the wall by refusal of the railway unions to accept the wage cut proposed, to enable the lines to continue operating. The Government would of necessity take them over. And the Brotherhoods automatically would cease to exist as a labor force—for Federal employees cannot strike against the Government, and Federal wage scales are fixed arbitrarily by public officials, leaving workers without recourse in event of wage dissatisfaction.

No, indeed! The interests of the AFL are all on the side of business free of government control — and AFL leaders lank too intelligent not to recognize it.—Contributed.

AUGUST UNEMPLOYED GET $6,802 IN COUNTY

Business interests in Nevada county profited by $6,802.66 during the month of August as the result of unemployment compensation checks mailed from Sacramento to eligible unemployed workers in this county.

This announcement was made Friday by Edward E. Steele manager of the State Department of Employment office in Grass Valley, who said he had just received the August reports of disbursements from Sacramento.

Payments for August Steele said, were slightly under those for July, for two reasons: first, to work during the summer months of a large number of cannery and other seasonal industrial workers, and second, exhaustion of benefits in many instances for those persons who filed claims during January and February.

MOVIE STAR GIVES SHOP GIRL SHOCK

A Culver City shopgirl got the shock of her life when Actor James Stewart ordered six sets of long woolen underwear and held them in front of him to see if they were the correct size. Noting the girl's blushes, the actor explained that in "The Shopworn Angel," coming Tuesday to the Nevada Theatre, his only wardrobe is a regulation private's uniform of the World War vintage. He said it scratched so much that he wanted the underwear for protection.

1939 BUICK IS LOWER IN PRICE

Making its bow in the Grass Valley showrooms of Paul Viles, Nevada County Buick dealer, the 1939 Buick is expected to receive a greater welcome than ever has been accorded a new model offering in the history of this make.

Styled in an entirely new and striking beauty, the immediate impression of the 1938 Buick is that it is lower and longer with fleeter, racier lines. An innovation which contributes to the striking appearance of the cars and which also has important engineering advantages is the adoption of "cat-walk cooling" employed extensively on Euopean racing cars. With this construction the grilles are set low, in rakish contour, in the cat-walk section between hood and fender. This not only results in better streamlining while emphasizing the low lines of the car but also provides a narrower hood with consequent improved vision and better cooling, because air is admitted under great pressure.

There are 18 body types among the four new eight cylinder chassis models. The Series 40 Special, on 120 inch wheelbase; the Series 60 Century, with a wheelbase of 126 inches; Series 80 Roadmaster, with 133 inch wheelbase and Series 90 Limited, with a wheelbase of 140 inches.

Despite the fact that the new cars represent a decided step-up in value, very substantial price reductions have been made in the standard sedan and coupe moleds, according to Mr. Viles.

All models now have Buick's Handi-Shift remote gear shift control with the shifter lever under the steering wheel, thus clearing the front compartment. Many other improvements for the driver's convenience and safety will be found in the controls and throughout the car, including a new warning flash direction signal, which through an illuminated arrow in the rear lamp indicates clearly to following cars that a turn is to be made in the direction indicated.

GRASS VALLEY LAUNDRY EXPANDS ITS CAPACITY

So excellent has been business that to better serve many hundreds of satisfied customers, the Grass Valley Laundry and Dry Cleaners, exclusive users of the famous "Zoric process" have installed a new, up to the minute Zoric dry cleaning unit.

This equipment although patterned along the same lines as that previously used, is larger and handles a greater capacity. It is more gentle in operation, thus insuring a more careful handling of garments.

The Grass Valley Laundry and Dry Cleaners recommend that you bring your garments to them for quick, safe, economical handling. Their motto is, and always has been "a satisfied customer is our best advertisement."

Uncle George — "So this is the new baby. I looked just like him when I was small. Why, what is he crying about?"

Niece—"Oh, Uncle George, he must have heard what you said."

Boss (to office boy)—"Johnny, you're fired."

Johnny — "What for? I haven't done anything."

Boss—"That's just it. I'm getting a boy who will do something."

CHINESE THEME OF O. E. S. PROGRAM TUES.

"The Chinese in early Nevada City" was the theme of a talk given by Mrs. Esther Tremaine Joyal at a meeting of Evangeline Chapter, O. E. S. Tuesday evening, October 4, when a Chinese program was carried out by the order.

Mrs. Joyal stated that the Chinese came to Nevada City and Grass Valley in early days. Chinatown was situated on Commercial street between Pine and York and from York on up to Broad. After the big fire of 1886 Chinatown was built on or near Washington road off B street. They erected a large joss house and each year elected a joss and had a wonderful time. It was a gala day; all school children and towns-people attending. The first Chinatown was down on Deer Creek toward the Champion mine. The Chinese mined along the creek using sluice boxes.

They were a very industrious people, later they had large gardens of vegetables and carried their produce in baskets hung on a yoke across their shoulders. Some of the old relics have been found in the three brick buildings now being torn down on Commercial street and are on exhibit at Shaws store on the same street.

Mrs. Joyal's mother said that when she was a child she often went over to Chinatown when the Chinese had a funeral. They would weep and play wierd music. The towns-people also were attracted by the odd customs of the Chinese.

GLAD TIDINGS MEMBERS IN FELLOWSHIP MEET

Six car loads of the Glad Tidings church of the twin cities motored to Yuba City Friday evening and enjoyed a fellowship meeting with the church in that city. In the party were Rev. Phil Gibson of the local church, and mother; Rev. George Thrane of the Grass Valley church and family; John Fradelizio, Mrs. Stultz and son, Roy, Mr. and Mrs. W. McMullin, and sons, Howard and Leonard, Mrs. Trewin and son, Albert, Mr. and Mrs. Henry Giller and daughter and son, Colleen and Tommy, Mr. Land, Charles Wolf, Mrs. Beck, Harry Sieker, Misses Alta Cox and Johnnie Hanks.

BIG TOMATOES

John Ghidotti, 75 year old resident of Prospect Hill, presented a neighbor with four tomatoes from his garden that weighed six pounds, each one weighing over a pound. He always raises a garden on his plot, but it was particularly good this year.

Mrs. Leo Huy and Mrs. Alice Johnson are making a two weeks visit at the home of Dr. and Mrs. C. W. Chapman. Mrs. Johnson was the former Alice Chapman and both ladies are former Nevada City residents.

Bobbie was late for Sunday school and his teacher asked the reason.

"I was going fishing, but daddy wouldn't let me," said the boy.

"Your father," said the teacher, "was perfectly right. I suppose he explained why you shouldn't go fishing on Sunday."

"Yes", replied the boy, "He said there wasn't enough bait for both of us."

NO INCREASE IN GAS TAX WANTED

By KATHERINE BRAITHWAITE

A few months ago the Grass Valley Chamber of Commerce gave a dinner at the Bret Harte Inn at which time it honored the entire State Highway Commission of California who were here on a tour of inspection. Prominent men from Auburn, Redding, Downieville, Nevada City and Grass Valley addressed the commission and pointed out the dire need of replacing the rough forty-niner trails for smooth modern highways.

Edward J. Neron, one of the principal speakers for the commission replied to those who addressed him by stating: "Temporary increase of state gasoline tax from 3 to 4 cents per gallon, to meet increased highway expenses due to the destructive floods of last winter is favored by political and civic leaders in northern California".

This increase may be of importance to certain politicians and civic leaders but it does not give a thrill of pleasurable anticipation to the motoring public in this region of northern California.

People who own automobiles are now the most heavily taxed citizens in the country and they are not over joyed at the thought of an increase in their burden. Mr. Neron may make the bitter pill easier to swallow by calling it a "temporary increase," but tax payers know that it is almost impossible to pull a plaster off when once it becomes fastened to their skins.

About four years ago the Federal Government levied a 1 cent gasoline tax for what was supposed to be a temporary two year period and this tax has not been lifted. From visible indications there is little liklihood of the tax being withdrawn for a long time to come.

Under the present 3 cent tax gasoline levy, approximately $44,000,000 is turned into the coffers of the state, county, and city administrations. Out of this sum $22,000,000 goes to the state highway department, $14,500'000 to the counties and $7,500,000 to the cities. In addition to these sums the Federal aid appropriations approximate $10,000,000. This is a lot of money to be paid by one set of citizens, who in addition must pay other Federal, county and city taxes.

The floods of last winter and spring added close to $10,000,000 to the state highway bill and it is for this extra expense the additional tax is proposed.

Automobile owners of Superior California feel that they have not received value for the millions of gas tax dollars they have already paid out. They are still bumping along on wagon roads from Auburn through Grass Valley and Nevada City to Tuckee. These roads were carved out of the wilderness by the early day pioneers.

Downieville, Camptonville and all the communities on the North San Juan Ridge are still served by a narrow trail that was originally blazed by the Argonauts for pack mules. School children travel by bus down the narrow slippery grade every morning and return every evening five days out of each week during the severest months of the year.

Motorists living in level valleys glide safely along wide smooth highways. The people who live in the hills and mountains of this region must creep along many miles of dangerous slippery mountain trails every time they want to buy a pound of butter or a pair of shoes.

With the annual gasoline tax yield reaching approximately $44,000,000 the automobile owners of this region of California have concluded enough money can be set aside from this sum to care for the needed repairs without increasing the already heavy burden to which motor car owners and operators are now subjected.

PLACER JUNIOR BLDG. CONTRACT

Placer Junior College's new buildings became reality Monday night October 3, when the Lawrence Construction Company of Sacramento was awarded the contravt for their construction at a cost of $70,494, exclusive of architect's fees, furnishings and equipment.

The latter items will run the cost of $90,000. The building fund at the present time is set up for $100,000, which includes some work at the high school plant and on the grounds.

Dr. John H. Napier, Jr., district superintendent, announced the board of trustees had awarded the contract. Napier stated it included the completion of the central heating plant, which includes the junior college and the new gymnasium in its present service. One unit of the heating plant was installed last winter.

Dean Wyman E Olson stated the new building when completed will give Placer Junior College a capacity of 350 students.

He estimated a capacity of 275 students without the flexibility of the high school plant, and stated the total may be reached by allowing for continued use of some high school departments.

The construction work is to commence October 11 and must be completed within 150 working days, according to the contract. This should result in a finished job late in March.

One unit will be known as the science building. It will house the chemistry, life science, mining and geology classes. The administration building will house a library and reading room, and oral English auditorium, seating 200 persons, an activity room and class rooms for the art department.

MARGARET PHARISS WINS BERKELEY HONOR

Margaret Phariss, of Nevada City, who by her scholastic standing on the Berkeley campus of the University of California has won membership in the Honor Students Association, has been made a member of the Personnel Committee of that organization, according to word received from Berkeley.

The purpose of the personnel committee is to supervise the recording of all the activities of the various honor students on their respective cards, thus facilitating the choosing of committees.

Bride—"Did I look nervous during the ceremony?"

Bridesmaid—"No, darling, not after Jack said 'I do'."

Bridegroom — "I like coffee for breakfast, but my wife likes tea."

Oldwed—"Don't worry about it. You'll soon get used to tea."

Plows His Way to Championship

Paul Stiefboldt, 22, of Naperville, Ill., is rewarded with a smile from his wife after winning the sixty-first annual Wheatland plowing championship at Plainfield, Ill. The youth defeated two former champions and a field of veteran farmers in the farming "world series" to win the crown of champion plowman.

For Autumn Fashion Parade

The growing seasonal attention to autumn and winter fashions makes this "little girl" design an attractive eyeful. Black galyak fur is the big feature, while the Scotch plaid silk facing adds a flattering touch of color above a bandeau of the fur.

Girl, 16, Is Mother of Triplets

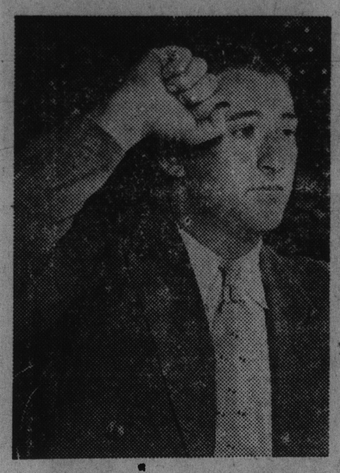

Mrs. Paul Grimm, 16-year-old wife of a 19-year-old truck driver, recently gave birth to triplets, two girls and a boy. The triplets (shown above with mother) whose combined weight was 15½ pounds, were reported "doing nicely" at a Steubenville, Ohio, hospital. Mrs. Grimm said "gee" when told by nurses of the triple blessed event. Her husband, who recently got off the relief rolls, was too surprised to comment.

They Sailed Alone From Hawaii

Pictured on their arrival at Santa Catalina island, Calif., are Mr. and Mrs. William Crow, who completed a 3,000-mile voyage from Hawaii in their 40-foot home-built schooner. With no other crew than themselves, they were out of sight of land for 47 days, encountering adverse winds and two weeks of continuous rains in mid-Pacific.

LOYALIST VETERAN

Abraham Sobel, 23-year-old Bostonian who testified before the house committee investigating un-American activities in Washington, that he was one of 23 American young men who had been recruited by Communists for service in the army of loyalist Spain. He said many of his companions were virtually prisoners there and could not come home in spite of their desire to do so.

WARLIKE DUCE

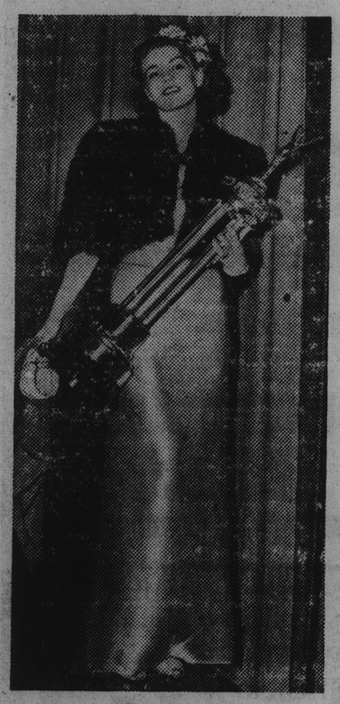

Premier Mussolini inspects one of the new arms of the infantry during the recent Italian army maneuvers in which more soldiers took part than at any time since the World war. He is shown inspecting a small assault gun.

Police Hold College Degrees

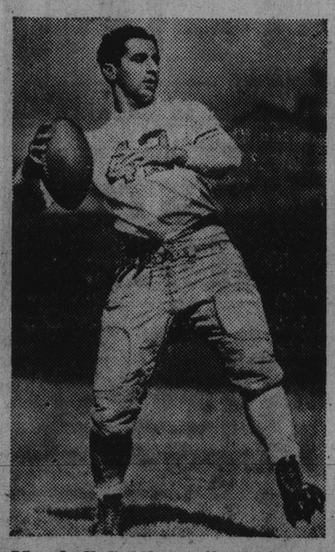

TOLEDO.—More than half the number of 20 new city police have college degrees.

'MISS AMERICA'

The title of Miss America 1938 was awarded to blonde Marilyn Meseke of Marion, Ohio, at the national beauty pageant in Atlantic City.

PITT STAR READY

Marshall Goldberg, the University of Pittsburgh's all-American halfback of 1937, who starts the 1938 football season as the Panthers' fullback. For two years running he has outgained the Panthers' combined opposition from scrimmage.

Bowling a la Panda Is Easy and Lots of Fun

Mei-Mei's tenpin style is a little unorthodox, but quite effective. At Chicago's Brookfield zoo she opened the new bowling season with a neat tonnage of four pins. Her follow-up—that determined stroll through the maples—will get the rest of the pins, however.

Puerto Rican Governor Becomes 'Pied Piper'

Following his recent escape from a would-be assassin, Gov. Blanton Winship of Puerto Rico found himself a hero among the island's children. Here a group of them are following Governor Winship as he inspects the new low-rent Falomsteria apartments, recently completed in a drive to rid the island of slums.

Hitler Acclaimed in Streets of Nuremburg

The Fuehrer is wildly cheered by the populace as he motors through the streets of medieval Nuremberg. It was here that 1,500,000 Germans rallied to hear their leader demand the right of self-determination for Sudeter Germans in Czechoslovakia.

Franklin D. Roosevelt III and Proud Parents

Franklin D. Roosevelt, III, acts just like any other baby as he poses for his picture with his father and mother, Mr. and Mrs. Franklin D. Roosevelt, Jr., at the home of her parents, Mr. and Mrs. Eugene duPont.

THE POCKETBOOK of KNOWLEDGE

BY TOPPS

From Aunt Sarah

Cookies! How quickly they disappear. Here's a foundation recipe with which you can almost catch up on the cookie eaters. You can make them in a jiffy. Mrs. Howard Burr sent this recipe to Aunt Sarah. She has used it many times.

Lightening Cookies

One egg.
Thee quarters cup milk.
One half cup butter or shortening.
Two cups flour.
One half teaspoon soda.
One and a half cups brown sugar.
One half cup nuts, ground fine.
One half teaspoon cinnamon.
One half cup chocolate may be used instead of nuts or both may be used.

Place all ingredients in a mixing bowl except the milk, add that just before stirring the whole lot into a rather stiff batter. Drop the cookies on a greased pan and bake.

FLOWER SALE BENEFIT

The sale of gorgeous flowers from the U. S. N. Johnson gardens brought about $35 to the Camp Fire Girls and Boy Scouts who conducted a sale on the lot near the Alpha Stores Saturday forenoon. The flowers were all sold before noon. Miss Vella Flindt and Robert Tamblyn managed the sales with the assistance of Boy Scouts and Camp Fire Girls. They give a vote of thanks to Mr. and Mrs. Nye Johnson for so generously giving them the flowers and also thank the public for purchasing them.

Andrew Carey, who is employed at the Plumbago mine at Alleghany as mill man, spent the week end at his home in Nevada City. He had some dental work done while here.

STATE EMLPOYES TO VOTE NO ON NOS. 20 AND 25

California's 20,000 state employees were warned Friday to vote "no" on propositions 20 and 25 on the November ballot if they wished to "save California!"

The warning was issued by the California State Employee magazine which said that proposition 20, the single tax, and proposition 25, the Thirty Thursday warrant plan, would wreck the state government and bring about a condition of general chaos.

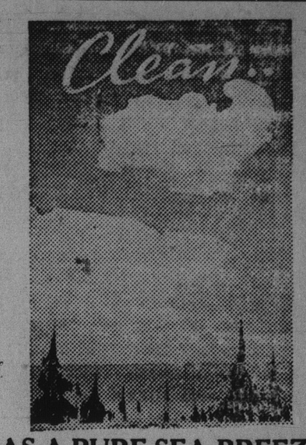

The magazine listed seven reasons why Californians should vote against proposition 20. They follow:

1. It would immediately skyrocket rents of all kinds.
2. Public services of all kinds would be immediately curtailed and in a few years time completely abandoned.
3. It would close the schools and destroy our carefully built up educational system.
4. Agricultural land would become practically valueless.
5. It would force a complete breakdown of our state and local tax-financial structure.
6. It would destroy savings and investments in Califoornia insurance policies, savings accounts would become worthless in a very short while.
7. It would compel an almost complete removal of industries from the state.

PEAR FRUIT AND BLOSSOMS

San Juan is known as a sunny warm place where everything thrives and latest surprise to many is the new blossoming pear tree in front of Lewis Woods store. There is a nice crop of Bartlett pears on the tree besides many blossoms.

Mrs. Rose Jones had as week end visitors her son, Edward Clunes, and wife of Bryte, Yolo county.

Ponemah Council Gives Benefit Card Party

Ponemah Council, Degree of Pocahontas, held their annual benefit card party last Monday evening, the proceeds to be sent to the general fund of the great council committee for the Orphans Christmas. A capacity crowd gathered at Odd Fellows hall where bridge, whist and mah jongg were enjoyed. Prizes of home made cake wrapped in cellophane were awarded as follows: whist, Felecia Moody, first; Mrs. Bennallack, second; C. Muscardini, third, E. Lashbaugh, fourth. Consolation Mrs. J. Clemo.; bridge, Mrs. Maude Hayes, first; Mrs. Olga Kopp, second; Mrs. Alice Brock, third; and C. E. Sisson, fourth. First door prize, Mrs. E. Jones; second, Mrs. Forrest Risley. District Deputy Elizabeth Lashbaugh has called for a full team rehearsal on Thursday evening October 13 in Odd Fellows hall under the leadership of Geo. W. Gildesleeve in preparation for class adoption October 17. The Council takes this means of thanking all those who helped to make the party a success and indirectly added extra Christmas cheer for the little ones cared for by the Red Men and Pocahontas.

Mrs. C. Shurtleff returned Friday from a month's vacation spent in a tour of the United States. She accompanied her daughter, Mrs. Susie Anderson of the bay region who makes yearly trips to New York to buy for her firm and went as far as Akron, Ohio to visit relatives. Upon their return they came back the northern route visiting Victoria, British Columbia.

PHILIP BANCROFT, at left, candidate for the United States Senate, meets a buddy who served under him during the World War. Bancroft had not seen George E. Thatcher, right, who was a sergeant in Bancroft's company in France, since the war ended. They met in Redding, California, where Bancroft stopped on a state-wide campaign tour and where Thatcher is employed as a truck driver. "It isn't often a man speaks for his superior officer," Thatcher said after the dramatic meeting, "but I want to say that Lieutenant Bancroft was as fine an officer as I ever knew and I'm working hard to get him elected to the senate."

JUST WONDERIN'

I wonder if Herr Hitler won,
Or if perchance he lost;
Of course he gained his heart's desire
Without war's frightful cost;
But now he stands before the world
In a revealing light
By which the future will adjudge
His actions wrong or right.

I wonder what estimate historians of the future will place upon the life and career of Herr Hitler; has his prestige been somewhat damaged by the "peaceful conquest" of little Czechaslovakia. No doubt the "furore" feels that his rugged ideology has won a momentous victory over the democratic ideals with which it clashed; but there have been times when captives led captors captive—a fact which despots should remember.

I wonder what we learned during that harrowing week ending October first; perhaps how and how not to make speeches. The lesson was one of contasts; first, long, loud diatribes, seething torrents of human oratory, boastful, defiant, threatening; and then the calm, restrained utterances of Prime Minister Neville, voicing the heart felt desires, of a war weary world. Perhaps the art of oratory will gradually ascend to higher levels.

I wonder if the world has at length found the way to peace; during that week of intensive observation, it became clearly apparent that public sentiment the world over, was arrayed against war and war's atrocities. It was found that national controversies could be settled at the conference table instead of upon the field of battle, and that treaties of peace can be made before as well as after the unspeakable horrors of war; lessons not soon to be forgotten.

Our sympathy goes out to Czechoslovakia in her hour of trial, but this little country, rudely assembled and clumsily articulated at the Versailles clinic, lacked the cohesion necessary to her continuation, as a nation. Perhaps her dismemberment at this time, may serve to right past wrongs and avert future calamities; perhaps the world which for centuries has poured unceasing libation to the god of war, must prepare to offer painful but bloodless sacrifices in the name of peace.

Peace? Even as I write, reports of a disturbing nature flash in from lands beyond the sea; sharp differences of opinion between English statesmen, France taking the road to totalitarianism, bitter protests from helpless Czechoslovakia, brutal persecution of Jewish minorities, the voice of the dictator again raised in crude boastfulness, and from the background, ominous growling tones of the bear that walks like a man. Is the dove of peace on the wing? Of is she down in the bogs walking backward? Over-confidence dies, optimism dims perceptibly, a modicum of pure pessism steals into the perplexed mind. Hope alone remains steadfast—hope pointing to visions of the future which tyrants never behold.

Uncle Silas says: "Cousin Timothy has invented a flying mowing machine that swoops down over a grain field and cuts the crop in less than a jiffy. Now Tim's famous and has contracts to write for the big city dailies; only trouble is, he can't decide whether to title his column—"My Way or My Hay."

—A. MERRIAM CONNER.

Fred C. Joubert of Camptonville was a business visitor in Nevada City Saturday.

Miss Alice Graham, daughter of Mr. and Mrs. Charles Graham, came home over the week end from Sacramento. She is attending junior college.

Son (entering office) — "Well, dad, I just ran in to say 'hello'."

Father—"Too late, my boy. Your mother ran in to say 'hello' a few minutes ago and she got all my spare cash."

Friend—"What's your new son like?"

Proud Father—"Well, he has my eyes and his mother's nose, but I think he got his voice from our auto horn."

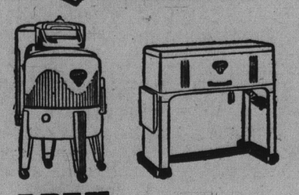

"What kind of a woman is Mrs. Brown?"

"She's the sort who tells you that something left her speechless and then talks about it for an hour and a half."

Traffic Officer—"As soon as I saw you come around the curve I said to myself, 'Forty-five at least'."

Woman driver — "Well, you're away off. It's this hat that makes me look so old."

MAIDS for YOU!

APEX WASHERS and IRONERS

Two laundry maids . . . that will give you cleaner, fresher, sweeter clothes. A few pennies a day will put them to work for you.

Only $5.00 Per Month

COOK THE NEW WAY WITH LOW TEMPERATURE-

Most everything you have dreamed of is in the 1939 Low Temperature Gas Range. Immaculate beauty—ample oven-cooking space, smokeless broiler, automatic, better cooking and utmost operating economy.

And what a delight these smart newest of all Gas Ranges are to use. With low temperature cooking, less expensive cuts of meat are cooked to delicious tenderness with healthfu vitamin and juice content cooked in—not dried out. Kitchens do not heat up and steam as much as with the rapid forced-cooking. Why not learn all about the better features of the new 1939 Gas Ranges that cook the new way with low temperature? You will find when you use one of these new Gas Ranges that you will save food, save food flavor, save vitamins in food, and save money. Drop in at your dealer's store or this company today.

BEWARE OF IMITATIONS!

Accept nothing less than the best . . . and be sure you get the original Miller High Life . . . the best beer from old Milwaukee. Here's how to be sure:

A This Cap of gold shows the words "High Life" printed in green in Miller's distinctive lettering.

B This Gold Foil Neck bears the name Miller High Life ... as the badge of a true brew. Accept no other.

C These Two Labels are as distinctive as the venerable beer they identify. Look for the famous High Life girl on the crossed neck label . . . and on the label that's always on an angle. Note this bottle carefully ... and you're sure to get

Miller HIGH LIFE

A union made beer for 83 years—Miller High Life is rated tops. The rich head of foam atop this sparkling golden brew is natural, not artificial. Pour a high glass of High Life. Order it wherever you go. Have a case of it in your home.
